

# RHINO

## SEPTIC TANKS

### The Environmentally Friendly Way to Dispose of Effluent

- Affordable, lightweight and compact with exceptional strength and durability, and easy to install.
- Available with optional Riser (manhole extension) and Filter Extension handle for easy access.
- Fitted with extra chamber and effluent filter for better solids separation and a longer soakaway life.
- Resistant to fracturing. Rhino septic tanks can withstand earth pressure that will fracture traditional concrete tanks.
- Resistant to most chemicals and impervious to corrosion.
